---

I placed the 9/23/2011 revisions to the Plan Set and Technical Specifications for the NWOD Segment 1 Residual Sediment Removal project on the NWODCANAL web page. You can look at the documents there. I will bring printed copies of the drawing set to next Wednesday's meeting. It is a big file to print, so if you can wait till next week you may find it less painful than trying to print the Plan Set.

The purpose of the revisions was to describe who (Tesoro or Working Group) is doing the various tasks at the Tesoro Pipeline Crossings, and to incorporate the Tesoro specifications for backfill over their buried pipe.

Let me know if you have any questions or comments.
